**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**In the Specification:**

Page 1, 1<sup>st</sup> sentence: after the term "2002", insert the language --, now US Patent 6,890,617--.

**In the claims:**

Claims 2, 4-6, and 13 are cancelled as they are directed to non-elected claims without traverse.

***Allowable Subject Matter***

2. Claims 7, 9-11, 14, and 15 (renumbered 1-6) are allowed. The following is an examiner's statement of reasons for allowance:

While the general formation of a porous adhesive sheet having a plurality of coated through holes is known, one of ordinary skill in the art at the time of the invention would not have found it obvious to form the through holes by creating a wire-containing film and subsequently removing the wire. Takeuchi (US 6,475,629) describes several of the common techniques used to form through holes in adhesive sheets, including

drilling, punching, and laser (Column 14, Lines 25-35). Crimmins (US 3,630,799) is additionally cited since it generally teaches a method in which wires are embedded between a pair of thermoplastic sheets and subsequently removed to define a plurality of holes or voids (Column 2, Lines 5-35). However, the prior art references of record failed to disclose, suggest or teach the claimed method in which a wire-containing, adhesive film is initially formed and the wire is subsequently removed, wherein said wire is coated with an organic material having a softening temperature higher (by at least 10 degrees Celsius) than that of the material used to form the adhesive sheet.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
